

Data Science in Hamburg
HELMHOLTZ Graduate School
for the Structure of Matter

DASHH is an interdisciplinary graduate school that offers challenging PhD topics at the interface of the natural sciences, applied mathematics, data science and informatics. DASHH involves several key research institutions and universities in the multifaceted city of Hamburg, Germany.

DASHH is looking for excellent and highly qualified PhD candidates,

interested to work on interdisciplinary, data-driven research projects in physics, engineering, chemistry, applied mathematics, computer science or structural biology.

We offer: Numerous attractive, interdisciplinary research topics in the natural sciences and computer science / applied mathematics with supervisors from both fields and a work contract at the level of the German TV-L13 (100%) salary scheme for 3 years.
